Letter of Transmittal

Helena, Montana
December 1, 1952

To His Excellency, The Governor
and Members of the Thirty-Third Legislative Assembly
of the State of Montana:

In compliance with the duty imposed upon the Board by Section 84-701 (18) of the Revised Codes of Montana of 1947, the Montana State Board of Equalization herewith submits its Biennial Report for the period July 1, 1950 to June 30, 1952.

STATE BOARD OF EQUALIZATION,
Archie E. Simon, Chairman,
Sam D. Goza,
Cal A. Robinson.

REPORT OF STATE BOARD OF EQUALIZATION

To His Excellency, The Governor,
and Members of the Thirty-Third Legislative Assembly:

Gentlemen:

The biennium covered by this report witnessed a continued increase in the amount and total value of property on the assessment roll, a consequent leveling off of levies, and the highest total collection of license, income and other taxes in the history of the State. As the books closed June 30, 1952, Montana and her 56 counties found themselves with substantial cash reserves, small debts, and a low tax delinquency which was more than offset by collections of taxes delinquent in prior years.

Property is now, and probably will be for many years the principal and most dependable source of revenue for Montana counties, schools and municipalities. Our constitution requires, and common sense demands, that it be uniformly assessed. That objective has been substantially met in the assessment of livestock and all other major classes of personal property, but in the assessment of real estate and improvements there is practically no uniformity on a state-wide basis. Correction of this situation is not difficult, but legislation is required.

The low point in assessed value of all property was reached in 1939. The all-time high of 1952 is an increase of \$785,940,000 or 77.52 per cent over the 1939 figure. Assessments of real estate and improvements make up \$175,365,000 of this increase. The balance, \$610,575,000, represents gains in assessments of livestock, personal property other than livestock, railroads, public utilities, and net proceeds of mines. The changes are set out in detail on pages 18 and 19 of this report.

The amount of property taxes levied for strictly state, county and school purposes in 1952 was higher by \$23,380,000 or 115.72 per cent than the total levied for the same purposes in 1939. State taxes more than doubled despite elimination of the general fund levy during intervening years. School taxes more than doubled and county taxes increased 80.25 per cent. Measured in dollars, these increases are impressive. Measured in terms of purchasing power, they are not so pronounced. The 1952 dollar has been estimated by various economists to be worth from 45 to 53 cents compared to the dollar in 1939. Assuming it is worth 50 cents, state taxes have increased 14.39 per cent since 1939, school taxes have increased 18.59 per cent and county taxes have actually decreased 9.87 per cent.

Theoretically, tax levies should be reduced as taxable valuations increase, but theory must give way to indisputable fact. When costs rise faster than assessed values they must be met by higher levies if the standard of

service demanded by taxpayers is to be maintained by counties, schools and municipalities. That has been the situation in Montana for a number of years, but the present outlook indicates stabilized or lower levies on rising taxable valuations in the foreseeable future.

Supplementing the levies on property a series of license and other taxes, fees and collections payable directly into the State Treasury take care of the requirements of all departments of state government, including grants-in-aid and appropriations to counties, schools and the six units of the University. License and other taxes in general are based on sales, gross income, net income, value or volume of production or on privilege. Because of fixed rates and changing conditions they are subject to wide fluctuations and cannot be relied upon as stable sources of revenue.

The State Board of Equalization collected \$28,396,000 of such revenue during the year ended June 30, 1952. Of that amount, \$14,666,000 less refunds, was earmarked for highways, \$1,901,000 for schools and \$1,455,150 for War Veterans Compensation bonds. The remainder, \$10,390,000, was credited to the State General fund.

The total general fund revenue from all sources during the year was \$19,654,000. Appropriations from the fund included \$4,665,000 for schools, \$1,993,000 to supplement the University property tax revenue, \$200,000 for grants-in-aid to the counties and regular appropriations to meet the costs of state government, including the support of the penitentiary, state hospital, tuberculosis sanitarium, vocational school, industrial school, orphans home, soldiers home and other institutions.

The total property tax levy was \$54,778,000. Of this amount \$3,172,000 was levied for the University, \$529,000 for University bonds, \$265,000 for state hospital bonds, and \$222,000 for special livestock purposes. The levy for county purposes totaled \$16,015,000; schools, \$23,775,000, and cities and towns, \$6,802,000. Also included in the total are hail insurance premiums amounting to \$294,600, drainage and irrigation assessments of \$1,417,000, city and town special improvement assessments of \$1,872,000 and miscellaneous levies approximating \$115,000.

A comparison with the tax systems of other states convinces us that Montana has a fundamentally sound, well-balanced system, unexcelled by that of any other state. Revisions and adjustments in existing laws are always in order for legislative consideration, but we do not believe that new laws imposing new taxes on the people of Montana are required at this time.

There has been no property tax levy for strictly state purposes since 1941, although the legislature has given the State Board of Equalization discretionary authority to make an annual levy of not to exceed two mills. This levy will produce general fund revenue of more than \$1,000,000 annually if and when required. Its elimination for the past eleven years has resulted in a saving to taxpayers of \$8,986,000 over the period.

A levy of 6 mills was imposed for University maintenance in 1951 and again in 1952, and a levy of one mill was made each year to take care of

interest and sinking fund requirements of University bonds. The one-half mill levy for the State Hospital bond interest and sinking fund has been continued. A four mill levy applicable to livestock valuations only has been imposed at the request of the Livestock Commission and the Livestock Sanitary Board.

Tax Delinquency

The delinquent tax situation in Montana is better than in most states. The total amount outstanding on the books of county treasurers June 30, 1952, for all years and all purposes was \$4,270,636, or less than eight per cent of the total levy for one normal year. However, this figure does not accurately reflect the situation throughout the state. More than \$1,282,000 has accrued in one county, leaving a total delinquency of only \$2,988,000 in the other 55 counties.

Net Indebtedness

The net indebtedness of the state represented by general obligation bonds less sinking funds was \$4,752,047 June 30, 1952, a decrease of \$1,622,622 during the biennium. Special project bonds, including highway debentures and War Veterans Compensation bonds, total \$26,656,970 net. These bonds and provisions for payment are set out in detail on page 135 of this report.

Montana counties are in excellent financial condition. If all county money now on hand could be used to pay outstanding obligations there would be a surplus of several million dollars. In computing net debt on the theory that each fund must stand alone, the total for all counties June 30, 1952 was \$3,540,944. The total was \$27,708,650 in 1923.

The normal debt limit of counties is three per cent of the assessed valuation. As of June 30, 1952, 30 counties had no net debt; 13 had debts of less than one-half of one per cent; seven had less than one per cent; and six were under one and one-half per cent.

The following table shows the trend since 1923:

At Close of Books June 30	Net County Debt
1923	\$27,708,650
1928	19,879,926
1934	12,350,363
1940	6,192,474
1945	1,960,898
1946	2,548,897
1948	2,831,385
1950	3,821,285
1952	3,540,944

1951 Assessments

The assessed value of all property in the state in 1951 was \$1,677,525,585, an increase of \$135,674,826 over the 1950 figure.

Irrigated land, with an increase of 27,000 acres over 1950, increased \$1,126,000 in assessed value. Dry tillable land increased 108,000 acres and \$255,000 in assessed value; grazing land increased 118,000 acres and \$608,000 in value. Farm improvements were up \$5,961,000.

Loss of 25,000 acres of timber land resulted in a decrease of \$161,000 in total assessed value of that class. Industrial sites and improvements gained \$811,000. The assessed value of city and town lots increased \$2,459,000 and improvements gained \$18,296,000. The total net gain in all real estate and improvements was \$29,020,000.

All classes of livestock except horses increased in number and value. Cattle, with an increase of 126,000 head and \$10.95 in average value, gained \$23,871,000 in total value; sheep increased 95,000 in number, \$1.00 in average value, and \$1,765,000 in total value. Swine and other livestock gained \$227,000. Horses, down 9,600 head, lost \$155,000 in value, making the net gain in total livestock \$25,708,000.

Assessments of personal property other than livestock showed a total increase of \$69,128,000 over 1950. Motor vehicles gained \$23,823,000 in assessed value; agricultural products, \$16,800,000; farm machinery \$11,150,000; merchandise, \$4,200,000; household goods, \$3,700,000; bank stock, \$1,700,000; mining machinery, \$1,700,000, and all other personal property, \$6,055,000.

The value of public utility lines assessed by the State Board of Equalization increased \$9,560,000. Assessments of net proceeds of mines totaled \$16,607,000, practically the same as in 1950.

1952 Assessments

In 1952 the total assessment rose to \$1,799,847,863, an increase of \$122,322,278 over 1951. Irrigated land, with substantially the same acreage as in 1951, decreased \$108,000 in total value. Dry tillable land, with 69,100 fewer acres, gained \$512,000 in value. The number of acres of grazing land on the roll increased 173,400 acres but gained only \$81,000 in value, and the assessed equity in state lands under contract increased 12,600 acres and \$16,000 in value. The total number of acres of agricultural land increased 115,600 and the total assessed value increased \$502,000. Farm improvements showed a gain of \$5,140,000, representing the value of additional farm improvements.

As in the prior year, city and town lots and improvements increased in value on the roll. Lots were up \$428,000, improvements \$14,875,000. This made a net increase in all real estate and improvement of \$20,611,000.

The assessment of livestock increased \$41,031,000 over 1951. Cattle went up \$38,012,000 with an increase of \$16.76 in average value per head; horses

declined \$238,000; sheep increased \$2.08 in average value and \$3,390,000 in total value. All other livestock increased \$95,000.

Personal property continued its upward climb with a total of \$560,948,000, contrasted with a comparable figure of \$514,418,000 in 1951. Motor vehicles increased \$17,831,000 in assessed value; bank stock increased \$1,571,000; household goods \$2,765,000; farm equipment \$8,351,000; merchandise \$4,854,000; furniture and fixtures of stores, offices, etc., \$958,000; manufacturing and mining machinery \$3,600,000; solvent credits \$2,751,000; machinery other than farm, mining or manufacturing \$207,000; and agricultural products in storage \$3,043,000.

The value of public utility lines assessed by the State Board of Equalization increased \$5,097,000. Net proceeds of mines increased \$5,211,000.

The assessed value of farm land in 1952 averaged \$5.16 an acre, compared to an average value of \$11.00 in 1923. As the books closed in 1952, farm lands were assessed at 49.38 per cent of the total placed upon that class of property in 1923; livestock had a taxable value of 277.82 per cent; utilities were valued at 101.92 per cent of the 1923 figure, and all other property showed a valuation of 163.89 per cent of the 1923 total.

The continued trend away from real estate to other forms of property is reflected in detail figures on the source of the property tax dollar. In 1936 farm lands and improvements paid 30.8 cents of the tax dollar; utilities paid 29.2 cents; livestock paid 4.6 cents; and other personal property paid 12.5 cents. In 1952 farm lands and improvements paid 19.4 cents; utilities paid 21.8 cents; livestock paid 10.3 cents; and other personal property paid 22.7 cents.

Analysis of the property tax dollar shows that the state received 10.73 cents in 1936 and 8.28 cents in 1952; schools received 40.23 cents in 1936 and 46.97 cents in 1952; the county share in 1936 was 36.55 cents and 31.31 cents in 1952.

In preparing this report the State Board of Equalization has attempted to present a picture in some detail of the present license and tax status. Recommendations directed chiefly to improvement in required administrative procedure in our Inheritance, Income, Corporation License and Gasoline Tax Refund divisions will be found on pages 20, 22, 31 and 43 of this report.

SUMMARY OF ROUTINE ACTIVITIES

The activities of the State Board of Equalization are so extensive and varied in scope that an outline only can be given here. The work falls naturally into three broad divisions:

- (1) General supervision of the administration of all state tax laws.
- (2) Assessment of railroads, power lines and other property extending into or through more than one county in the state, and assessment of net proceeds of coal, metal and miscellaneous mines and oil production.
- (3) Assessment and collection of license, income and inheritance taxes.

In the exercise of its general supervisory powers over the administration of assessment, tax and revenue laws of the state, the Board prescribes rules and regulations governing county officials in the performance of their duties, prepares and prescribes uniform forms for the use and assistance of such officials, conducts hearings on appeal and on its own motion, advises, directs and assists municipal tax officials, collects and compiles information from administrators within the state and from state departments of other states, and performs a multitude of duties which naturally devolve upon it in connection with this phase of the work.

Property Assessments

The taxable value of railroads, power lines, natural gas lines, telephone and telegraph lines, oil pipe lines and other properties assessed by the Board approximates 26 per cent of the entire state taxable valuation. These assessments require consideration of stock and bond values, past and present net earnings, future prospects, present condition, and numerous other factors reflecting the actual value of the properties assessed. Forty-five such assessments, aggregating about one-third of a billion dollars, were made in 1952.

The Following License Taxes are Administered by the State Board of Equalization:

Gasoline License Tax	Contractors License Tax
Oil Production Tax	Electrical Energy Tax
Cement and Plaster License Tax	Natural Gas Tax
Coal License Tax	Telegraph Company Tax
Carbon Black License Tax	Chain Stores License Tax
Sleeping Car Tax	Telephone License Tax
Corporation License Tax	Theatre License Tax
Freight Line Tax	Cigarette Tax and License
Inheritance Tax	Vermiculite License Tax
Personal Income Tax	

THE LEGAL DEPARTMENT

Mr. H. O. Vralstad, employed as chief tax counsel in 1945, continues in that capacity. Mr. Lyman J. Hall, assistant tax counsel, succeeded Mr. Daniel J. Sullivan, who resigned in November, 1951. Mr. Hall took post graduate work in tax law at the New York University.

A note of interest reported in the Eighth Biennial Report of this board is that the legal department was created in 1937, and during a 12-week period in the next biennium more than \$1,000 a day in unpaid corporation license taxes were recovered without suit—revenue that would have been lost to the taxpayers of Montana to their cost of increased taxes. It is safe to estimate that an equivalent amount of additional revenue has been collected annually since then through the efforts of that department. But all benefits accruing to the State from this service are not measurable in terms of money alone. Tax laws are extremely complicated and difficult of comprehension without a special knowledge of them acquired after years of experience. This board receives numerous complicated legal questions daily from lawyers, laymen and taxing officials throughout the state. Those questions require answers quickly and correctly, and with a view to policy consistency in conformity with legislative mandate for purpose of uniformity and equality of taxation.

Our Legal Department works in cooperation with the office of the Attorney General of Montana, and during this biennium appeals were taken by the State from adverse decisions in three estates, to the State Supreme Court which reversed each of them. Perhaps the most outstanding of them was in the estate of William J. Hunter, deceased, domiciled in California. For purpose of reducing the inheritance tax of this State, it was sought to apply the California Community Property Law to his estate in Montana, but the Supreme Court held to the contrary. This was a case of first impression on this point in Montana and in the United States. Another case decided by the Supreme Court on application of this board was against the District Court of Flathead County and the judge thereof, determining that mandamus is not the proper remedy for reviewing the decision of this board with respect to property assessments. The only instance in which the views of this board were not sustained was in an action by the Great Northern Railway Company against this board to compel it to allow a claim for refund of gasoline license tax with respect to gasoline lost in transit, and without the requisite invoices being issued by the seller, as directed by statute. However, the lower court granted the order and the Supreme Court affirmed it.

Other matters of public concern are now pending in both the district courts and in the Supreme Court of this State, and will be of interest and reported in the next biennial report, when finally determined.

Field Supervisor

This position was created in 1939 to meet the need for a liason man to co-ordinate the work of the various county taxing officials, and establish closer relationship between such officials and the State Board. Mr. Otto Wagnild, long-time assessor of Teton County, was chosen for the position and has been employed in that capacity since that time.

The Supervisor, whose time at first was devoted largely to assisting and advising county tax officials in the discharge of their duties, now performs many other services. He sees that all assessments, including railroad and utility assessments made by the State Board, are properly entered on the county rolls and correctly classified, and that county reports to the State Board of Equalization are properly prepared. He investigates all appeals and assists the Board in conducting the hearings thereon.

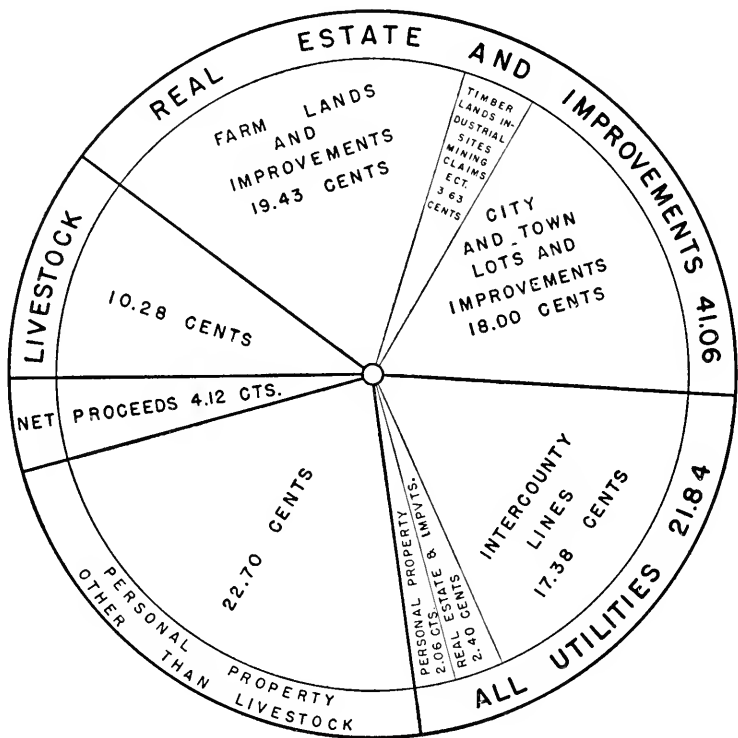

The Supervisor, on request, consults with Boards of County Commissioners, County Assessors and taxpayers relative to the reclassification of lands and reappraisal of all improvements, and assists in the initiation of such projects.

The Supervisor makes special investigations for the Inheritance Tax division, resulting in increased valuation and consequent taxes in a great number of cases, and confirmation of submitted values in others. Such investigations greatly facilitate the work of the Inheritance Tax division.

TAXABLE VALUATIONS—1923-1952

YEAR	FARM LANDS			LIVESTOCK			UTILITIES			ALL OTHER PROPERTY			TOTAL ALL PROPERTY		
	Taxable Valuation	Ratio to 1923 (%)		Taxable Valuation	Ratio to 1923 (%)		Taxable Valuation	Ratio to 1923 (%)		Taxable Valuation	Ratio to 1923 (%)		Taxable Valuation	Ratio to 1923 (%)	
1923	\$162,939,399	100.00		\$19,596,227	100.00		\$113,608,020	100.00		\$170,496,106	100.00		\$466,639,752	100.00

INHERITANCE TAX DEPARTMENT

The Inheritance Tax collections for the biennial period amounted to \$1,446,840.20. In comparing previous collections it will be noted that this is the largest collection ever made by this department. The increased checking program mentioned in the last biennial report has been continued and is still producing marked results. The largest collections made during this period were:

F. A. Buttrey, Hill County	Tax:	\$47,532.40
William Jones, Dawson County	Tax:	\$43,189.94
Adelaide Child, Lewis & Clark County	Tax:	\$39,821.47
Hyme Lipsker, Yellowstone County	Tax:	\$32,332.57
Alpha Chapman, Carbon County	Tax:	\$30,816.48
Lewis McNeil, Chouteau County	Tax:	\$19,602.23
Elmore William Roberts, Cascade County	Tax:	\$10,166.30
A partial payment was made in the Augusta Kohrs		
Estate, Lewis & Clark County, Tax Payment:		\$15,691.50

During this period attorneys and personal representatives submitted reports to the Board for audit involving 6,987 estates. In addition, the Board issued 5,197 consents to transfer shares of stock in Montana corporations, owned by non-resident decedents. The tax collected from such non-resident decedents amounted to \$15,778.91.

Total collections for the respective years of the biennium were as follows:

For the fiscal year ending June 30, 1951	\$ 695,615.72
For the fiscal year ending June 30, 1952	751,224.48
		<hr/>
		\$1,446,840.20

All Inheritance Tax collections are credited to the State General Fund.

Our Reciprocity Law was passed in 1945, and at the present time a large percentage of the non-resident consents to transfer stock in Montana corporations are non-taxable. From time to time money is sent by eastern attorneys and trust companies because they expect to pay a fee for this service, and of course at this time this money must be returned. If a five dollar (\$5.00) fee were imposed on all transfers, and this amount used for the administration of the Inheritance Tax Department, it would greatly help to cover the cost of printing, labor and services rendered. Due to the volume of work handled by this department, waivers are issued intermittently, causing great delays and bringing severe criticism from time to time.

Section 91-4405, R.C.M. 1947, with respect to joint tenancies should be clarified. The except clause of the section has not only caused a great deal of confusion, but has lost a large amount of revenue for the State of Montana. We suggest this clause be stricken from the statute.

The law should be amended with respect to decedents' estates so that petitions for probate of Wills or for Letters of Administration must be made within six (6) months after death. In several instances, neither probate nor Inheritance Tax proceedings have been commenced until several years after death. We find that in the meantime much property has become lost, destroyed, or has disappeared, to the detriment of the State of Montana.

We also find it would be advisable to amend the law with respect to jointly held safety deposit boxes and joint bank accounts, to prevent removal of the contents of such safety deposit boxes and such accounts in which a deceased person was interested until the contents and amounts have been inspected by this Board, and proper record made to insure payment of the Inheritance Tax, if any.

The 1951 Legislative Assembly under 91-4423, R.C.M. 1947, changed the law stating if neither certificate nor objections shall have been filed at the time fixed for hearing, it shall be conclusively presumed that the Board concurs in the amount computed in the 3-A Report. Not only has our Inheritance Tax Department found a tremendous number of errors in the 3-A Reports, but they find that very frequently attorneys will send in all reports at one time, or in the joint tenancy matters they send in the Notice for Appraisal and the Notice for Inheritance Tax determination both at the same time. It not only tends to confuse the Court, but works a hardship on the department because the certificates cannot be issued in time for said hearings. Therefore, we recommend this provision be eliminated.

Under Section 91-4415, R.C.M. 1947, the 1951 Legislative Assembly made changes limiting the Inheritance Tax lien to ten (10) years. This Board finds that many estates are not brought to the attention of the proper court or to the attention of this Board and therefore they are not administered upon within that period of time. We recommend that the ten year limit be removed.

PERSONAL INCOME TAX

During the fiscal year ending June 30, 1952, taxable returns were filed currently before they became delinquent by 117,078 taxpayers who paid an average of \$41.50 tax totaling \$4,857,672.01.

Back taxes were paid on deficiencies and delinquent returns by 12,505 taxpayers who paid an average of \$37.60 or a total of \$469,936.57. Total collections were \$5,327,-608.58. This is an increase of \$892,833.61 over the preceding year. The following schedule shows that this exceeds the collections of any preceding year. Returns reflecting no tax due were filed by 38,145 taxpayers. This means that these taxpayers sustained an operating loss or their personal exemption credit for dependents exceeded their net income.

It will be observed that more than 10% of the total number of taxpayers filed erroneous returns or none at all. The amount of back taxes collected was slightly less than 10%. Section 84-4913 requires all employers to file statements of salaries paid to employees each year. These reports are compared with the amount of income reported by the employee. If the employee returns less income than is shown by his employer's statement, the return is adjusted and the additional tax is solicited. If no return has been filed by the employee, he becomes a potential delinquent and is examined to determine what, if any, tax he may owe.

During 1952 approximately 200,000 of these statements were filed by employers. In these days of high wages and rapid turnover of employees, it has been found that many taxpayers have been employed in two to ten different places during the year and that each of these employers have filed the required statements. Thousands of these statements are never processed because the appropriation is not sufficient to pay the wages to personnel competent to perform the services.

Because of this condition, the small income statements are weeded out and efforts are devoted only to those with the larger incomes. This is the reason for the high average of \$37.60 for back tax returns. With adequate facilities and personnel it is estimated that several thousand more taxpayers with smaller incomes would be added to the tax rolls each year. Many of these new taxpayers once on the rolls would continue to file returns voluntarily. The average cost of collecting the smaller accounts will be about the same as the larger ones which are now being collected. Much of the collection difficulties would be overcome if the entire field of known prospective delinquents could be canvassed and compelled to carry their fair share of the tax burden even though it be small. In this connection, we suggest that legislation which will enable us to collect taxes justly due from migratory workers be enacted.

Another larger source of revenue which is not being fully explored is errors contained in returns filed currently. There is now on hand a back log of more than 250,000 returns which have never been examined for errors or omissions. The reason for this large back log is lack of appropriation to employ the necessary skilled talent to do the job.

As time passes returns increase in number, size and complications requiring more and greater talent to detect the errors and omissions and weigh the probable cost of collection against the probable additional tax.

Schedule of Estimated back income taxes for 1950 and prior years. The name of the taxpayer and the amount due will not be determined until the returns or the taxpayer have been examined.

(A)	1088	Returns which are audited and deficiencies determined	104,680
(B)	385,100	Returns yet to be examined, estimated yield	358,000
(C)	880	Returns now in the field for examination	17,600
(D)	315	Warrants for distraint in field	7,200
(E)	25,800	Information returns form 1A which have been processed and are ready to be canvassed. Approximate yield	237,360
(F)	150,000	Forms 1A, 1950 not yet processed, Approximate yield	230,000
			<hr/>
			955,340

All taxable 1947 returns have been examined.

- (a) These cases are in all stages of collection. Some are protested, others no money, out of State and all kinds of promises. Some of these accounts will be adjusted downward when accounts are examined.
- (b) This includes all 1949 and 1950 returns, both taxable and non-taxable. For 1948, 53,000 taxable returns out of 98,000 have been completed. 1947 and 1948 non-taxable returns have not been examined. 1951 returns are now being filed.
- (c) These returns are classified for field examination.
- (d) These are all warrants for distraint, some of which will not be paid because of no property or income.
- (e) These are the ones which have been leftover from 1949 and prior years delinquent campaigns, of which 10,000 will be taxable.
- (f) These are all 1950 information returns which have not been processed. We will find that 75,000 of these have filed returns and 50,000 will be closed without being processed because the amount of salary shown in the form are too small to justify the cost of processing. 25,000 will be left as prospective delinquents of which 10,000 will probably be taxable.

CIGARETTE LICENSE TAX LAW

In 1947 the Montana State Legislature passed a Cigarette License Tax Law which went into effect on July 1, 1947. This law is administered under the provisions of Chapter 56, Title 84, R. C. M. 1947.

This law imposes a tax of 2 cents on each package of 20 cigarettes or fraction thereof sold and consumed within the State. By posting a \$5000.00 bond, cigarette dealers and distributors are allowed to use Cigarette Tax Meter Machines which imprint an insignia on each package of cigarettes, showing that the required Montana Cigarette Tax has been paid. A discount of 10% is allowed each purchaser of stamps or user of a Tax Meter Machine.

Both wholesalers and retailers are allowed to purchase stamps which are sold only through the State Board of Equalization. Every wholesaler and retailer of cigarettes must have a license from this Board for the purpose of making such sales. Cigarette licenses are issued on a permanent basis and must be returned for cancellation whenever the sale of cigarettes is discontinued. License fees are \$15.00 for a wholesale license and \$5.00 for a retail license.

At the General Election on November 7, 1950, Initiative Measure No. 54 was passed by the voters of the State of Montana. This measure provided for a Bonus payment to Montana veterans of World War 2, the money for which was to be collected by imposing an additional 2 cent tax on each package of cigarettes. No discount is allowed on this additional tax and it is credited to the Veteran's Bonus Fund in its entirety. The law became effective on December 7, 1950 by the Governor's proclamation as provided by law. Purchasers of cigarette stamps are now allowed a discount of 5% on the total value of a stamp order or 10% on one half of the total value. The State share of the tax is credited to the General Fund.

Cigarette Tax Collections were as follows:

FISCAL YEAR July 1, 1950—June 30, 1951

July 1950	\$ 131,024.80
August 1950	128,752.74
September 1950	132,534.00
October 1950	116,269.18
November 1950	102,975.10
December 1950	229,740.86
January 1951	175,881.46
February 1951	188,430.86
March 1951	192,502.20

Total	150,872	\$7,543.64

MOVING PICTURE THEATRE LICENSE TAX

Chapter 33, Title 84, R. C. M. 1947, imposes a license tax for the privilege of operating a moving picture theatre within the state. The rate of tax is $1\frac{1}{4}\%$ per quarter on income in excess of \$3000.00 derived from the sale of moving picture theatre tickets. Operators who own or control two or more theatres are allowed an exemption of only \$3000.00 per quarter on the combined receipts of all theatres comprising a chain. Reports and statements of receipts per quarter must be filed as soon as possible after the close of each quarter, and must be accompanied by an application for a renewal license covering the quarter next ensuing.

All Moving Picture Theatre License Taxes collected are distributed to the credit of the General Fund.

Tax accruals for the past biennium were as follows:

FISCAL YEAR 1950-1951**INDIVIDUAL THEATRES:**

Third quarter 1950	\$ 3,140.33
Fourth quarter 1950	1,515.75
First quarter 1951	1,438.60
Second quarter 1951	3,006.27
TOTAL	\$ 9,100.95

CHAIN THEATRES:

Third quarter 1950	\$ 9,893.04
Fourth quarter 1950	10,591.83
First quarter 1951	10,773.54
Second quarter 1951	10,076.94
TOTAL	\$41,335.35

Total for Fiscal Year 1950-1951 **\$50,436.30**

During the Fiscal Year 1950-1951 there were 97 individual theatres operating, of which 48 paid a tax and 49 were non-taxable. 24 chains operated 87 Theatres.

FISCAL YEAR 1951-1952**INDIVIDUAL THEATRES:**

Third quarter 1951	\$ 3,706.39
Fourth quarter 1951	1,809.33
First quarter 1952	1,890.88
Second quarter 1952	3,815.38
TOTAL	\$11,221.98

CHAIN THEATRES:

Third quarter 1951	\$ 10,054.84
Second quarter 1951	10,242.17
First quarter 1952	11,347.56
Second quarter 1952	16,787.91
TOTAL	\$48,432.48

Total Fiscal Year 1951-1952 **\$59,654.46**

During the Fiscal Year 1951-1952 there were 93 individual theatres operating, of which 52 paid a tax and 41 were non-taxable. 25 Chains operated 83 Theatres.

CORPORATION LICENSE TAX DEPARTMENT

Introductory Statement. The corporation license tax is imposed for the privilege of doing business in Montana in the year in which the tax is paid. The rate of tax is 3% of the corporation's net income for the preceding taxable year.

During the past biennium collections amounted to \$4,891,905, representing an increase of \$1,004,971, or 26%, over collections for the previous biennium. Collections for each of the fiscal years of the biennium were higher than in any previous year, amounting to \$2,615,217 for the year ended June 30, 1951 and \$2,276,688 for the year ended June 30, 1952.

Revenue Trends. Corporation license tax collections have continued to increase each biennium during the post-war period, due principally to an increase in average corporate profits, an increase in the number of corporations doing business in Montana, and the post-war reduction in Federal income taxes. However, with an apparent leveling off of corporate profits, the increase in Federal income tax rates and the imposition of an excess profits tax on corporations, it is evident that our revenue will decline, inasmuch as these increased Federal taxes constitute allowable deductions in computing net income subject to tax under our law.

Results of Audit Program. As the result of office and field audits, deficiency assessment were made in 258 cases during the fiscal year ended June 30, 1952. These deficiency assessment amounted to \$43,816, or an average of \$169.83 per audit. The cost of conducting our audit program was approximately 8 cents per deficiency dollar assessed.

Proper administration of the corporation license tax statutes require that our field auditing program be expanded, particularly in regard to foreign corporations. The largest number of erroneous returns are known to be in the foreign corporation class; however, adjustments can be made only after an examination and conference in the home office of the corporation. Lack of funds has continued to prevent out-of-state audits for the past twelve years, and the need for such examinations is now urgent. It is to be recalled that the most recent out-of-state field trips resulted in additional tax collections of approximately \$1,100.00 for each day out of state, at the cost of less than 3 cents for every dollar of additional tax collected.

Statistical Information. The following statistics show (1) the additional deficiency assessments resulting from office and field audits during the past ten fiscal years, and (2) the classification of collections from the various types of businesses during the past four fiscal years:

ANALYSIS OF DEFICIENCY ASSESSMENTS

LEGISLATIVE RECOMMENDATIONS

Section 84-1502 (3): This section provides that the allowance for depletion shall be computed in accordance with the provisions of the Internal Revenue Code. In the case of percentage depletion, this Code provides that the deduction shall be limited to 50% of "net income." Considerable confusion exists as to whether the deduction shall be limited to 50% of Montana corporation license tax net income or Federal income tax net income. We recommend that this section be amended and the law clarified to provide that percentage depletion is to be computed upon the basis of Montana net income.

Section 84-1502 (5): In order to clarify our present law and make certain our administrative policy it is recommended that this section be amended to limit the deduction for Federal income and excess profits taxes to those taxes actually paid on net income taxable under the Montana corporation license tax statute.

Section 84-1508: The major source of deficiency assessments stem from changes in Federal net income resulting from examinations by Internal Revenue Agents. At the present time, the number of foreign corporations voluntarily submitting these reports is negligible, and considerable revenue is thus lost. In regard to domestic corporations, we believe that much time and administrative expense could be saved if the law were amended so as to require that a report of these changes be filed with this Board within a certain time limit and imposing penalties for failure to do so.

Statute of Limitations: It is the recommendation of this Department that a prohibitory statute of limitations be enacted to provide that neither a deficiency assessment can be rendered nor a refund claim processed after five years from the due date of the return, but such statute of limitations on deficiency assessments should not be operative if the return omits 25% or more of net income as corrected or if waivers have been executed in regard to Federal income tax returns.

CHAIN STORE LICENSE TAX

The Chain Store License Tax Law is administered under the provisions of Chapter 24, Title 84, R. C. M. 1947, which imposes a graduated license tax fee on all stores, operating within the state, depending on the kind and number of stores operated. Under the provisions of the law, any mercantile establishment or other place of business from which goods, ware or merchandise of any class is sold at either retail or wholesale is classified as a store.

The Chain Store License Tax Law was first inaugurated in 1933. In 1937, a second Chain Store License Tax Law was passed which materially changed the license fees and the classification of stores. However this law was declared unconstitutional by the State Supreme Court, due to a faulty enacting clause. The law of 1937 was amended by the law of 1939 under the provisions of which we now operate. All license fees and taxes collected under this law are distributed to the credit of the General Fund.

Store License Tax Fees are as follows:

WHOLESALE STORES:

Each store	\$ 38.00
------------	----------

RETAIL MERCANTILE ESTABLISHMENTS:

One store	\$ 5.50
Two stores	56.00
Three stores	156.50
Four stores	307.00
Five stores	507.50
Each store in excess of five	200.50

Gasoline Filling Stations, Gasoline Distributing Plants, Grain Elevators, Lumber Yards and Hardware Stores:

One store;	\$ 5.50
Two stores	13.50
Three stores	29.00
Four stores	52.00
Five stores	82.50
Six stores	120.50
Each store in excess of six	38.00

The foregoing fees include the application filing fee of 50 cents for EACH store to be licensed. All store licenses expire on the 31st. day of December of the year for which they are issued. Places of business opening on or any time after July 1st. of a calendar year may obtain a half year license by paying one half the fee as noted above plus the regular filing fee of 50 cents. It is suggested that the half year license fee be eliminated from the law and the full year license fee be paid regardless of the time of the year that the place of business is established.

CHAIN STORE LICENSE TAX COLLECTIONS:

Fiscal Year July 1st. 1950 to June 30th. 1951 inclusive:

TELEPHONE LICENSE TAX:

The Telephone License Tax Law is administered under the provisions of Title 84, Chapter 26, R. C. M. 1947 which imposes a license tax of 1½% on the gross income, less \$250.00 exemption per quarter on revenue derived from the operation of all telephone business transacted within the State, whether operated by an individual, corporation, partnership or co-operative association. Many of the smaller telephone companies are not liable for the tax, due to the fact that they merely pay a monthly rental rate to the trunk company for connecting privileges and their income does not exceed the \$250.00 exemption per quarter allowed by law.

The tax is payable quarterly and must be paid within sixty days after the close of each quarter. Tax payments vary from a few dollars to several thousands per quarter. By far the largest portion of the tax is paid by one company. All telephone license taxes are credited to the state general fund.

Tax accruals for the past biennium are as follows:

FISCAL YEAR 1950-1951:

Third quarter 1950	\$24,902.47	
Fourth quarter 1950	24,442.13	
First quarter 1951	24,468.07	
Second quarter 1951	26,544.11

First quarter 1952	28,427.72	
Second quarter 1952	32,753.61	
<hr/>		
Total fiscal year 1951-1952		\$117,478.63

COAL MINERS AND DEALERS LICENSE TAX

Title 84, Chapters 13 and 14, Revised Codes of Montana, 1947, provides for a license tax in an amount equal to 5 cents per ton on each ton of coal mined within the State, and an equal amount of each ton of coal shipped into and sold within the State. Chapter 200, Laws of 1939, effective March 17, 1939, amended the producers law to permit an annual exemption of 50,000 tons. Proceeds are credited to the state general fund.

OIL PRODUCERS LICENSE TAX

Title 84, Chapter 22 of the Revised Codes of Montana of 1947, enacted by the Legislature of 1921, provided for a license tax in an amount equal to one percent of the total gross value of all petroleum and other mineral crude oils produced within the state, the proceeds from this act to be deposited to the credit of the general fund of the state. The Legislature of 1923 amended the law, raising the tax to two percent.

TRADE STIMULATOR LICENSE TAX LAW

In 1947, the Montana State Legislature passed a Trade Stimulator License Tax Law which was administered under the provisions of Chapter 57, Title 84, R. C. M. 1947.

This law imposed a tax of 3% on the potential value of each Trade Stimulator exhibited. This included Punch Boards, Pull Cards, and similar devices that announced that an award would be given to a purchaser of a ticket, in terms of merchandise or other things of value.

Under the provisions of this law the County Treasurer of each County within the State was empowered to sell Trade Stimulator stamps and remit the proceeds of such sales to the State Board of Equalization at the end of each month, same to be deposited to the credit of the State General Fund. The sale of stamps was also made through the office of the State Board of Equalization.

During the session of 1951 the Legislature passed a new Trade Stimulator Law which repealed the original law. The new law was administered under the provisions of Chapter 201, Session Laws of 1951, and provided that Trade Stimulator Stamps should be sold only by the State Board of Equalization upon direct application from distributors. Only distributors of Trade Stimulators were allowed to purchase the tax stamps and they were obliged to affix the required stamp on the board before it was sold to the exhibitor. The law also provided for a license to be purchased by the distributor and exhibitor. These licenses were issued on a fiscal year basis and the fees were \$10.00 for a distributor's license and \$5.00 for an exhibitor's license.

On June 10, 1952 the Montana Supreme Court rendered a decision stating that the licensing of Trade Stimulators violated the Montana State Constitution in reference to lotteries. The sale of Trade Stimulator Tax Stamps by this Board ceased on that day.

Trade Stimulator Tax collections were as follows:

FISCAL YEAR—1950-1951

	Office Collections	County Treasurer's Collections	Total
July 1950	\$ 128.40	\$ 24,083.22	\$ 24,211.62

**Note—County Treasurer's Collections of \$66,206.56 shown in July 1951 was for money collected in June 1951 and remitted for in July.

Total collected in license fees \$9,805.00

TELEGRAPH LICENSE TAX

Under the provisions of Title 84, Chapter 23, Revised Codes of Montana, 1947, a license tax of two per cent of intrastate income is imposed upon the operators of telegraph lines for the privilege of engaging in such business. One company reported under this Act, and paid taxes which amounted to a total of \$1,179.89 during the fiscal year ended June 30, 1951, and \$1,236.29 during the fiscal year ended June 30, 1952.

PUBLIC CONTRACTORS LICENSE

Title 84, Chapter 35, Revised Codes of Montana, 1947, provides that all contractors who submit proposals to, or enter into contracts with the State of Montana or any of its political subdivisions must procure a license from the State of Montana whenever the value of such bids or contracts exceed \$1,000.00. The law authorizes the issuance of three classes of license, depending on the value of the contract as follows:

Class A—Amount of Contract, unlimited, fee \$200.00.

Class B—Amount of Contract, limited to \$50,000.00, fee \$100.00.

Class C—Amount of Contract, limited to \$25,000.00, fee \$10.00.

Licensees may secure a renewal of their licenses in each successive calendar year by payment of 50 per cent of the fee for the original license, provided application for renewal is made on or before the first day of March of said successive calendar year.

All money collected under the provisions of Chapter 35 is deposited to the credit of the General Fund.

Public Contractors License Fees Collected by the State Board of Equalization**1951:**

	Class of Licenses	Number of Licenses	Amount
New Licenses	Class A	38	\$ 7,600
	Class B	17	1,700

	Class C	227	1,135
		<hr/> 630	<hr/> \$32,895

NATURAL GAS DISTRIBUTORS TAX

Under the provisions of Title 84, Chapter 21, Revised Codes of Montana, 1947, a license tax of $\frac{3}{8}$ of one cent (1c) per thousand cubic feet is imposed upon distributors and exporters of natural gas for the privilege of distributing to consumers within the state and exporting through a pipe line for use outside the state.

The provision relating to exported gas was declared invalid by our Supreme Court in 1943. No taxes were ever collected under this provision.

All taxes collected under the provisions of this Act are credited to the General Fund of the State.

Six (6) companies are reporting under this act;

	Number of Thousands Cubic Feet	Amount of Tax Paid
FISCAL YEAR—July 1, 1950 to June 30, 1951:		
Third quarter, 1950	4,153,993	\$ 15,577.47

	<u>34,059,747</u>	<u>\$127,536.60</u>

FREIGHT LINE TAX

Chapter 137, Laws of 1949, effective July 1, 1949, provides that every freight line company shall pay annually a sum in the nature of a tax in the amount of five per cent of total gross earnings within the state. The declared intention is that the tax so computed shall not be greater than the amount that would be paid if the cars were taxed on an ad valorem basis. Proceeds are credited to the State General Fund.

Railroads withhold the amount of tax due from freight line companies operating in the state and remit direct to the State Board of Equalization. Opportunity is provided freight line companies to protest and recover back any tax they deem excessive.

Eight railroads reported under this Act.

	1951	1952
Gross Earnings of Freight Line Companies	\$2,709,333	\$ 2,999,711
Tax Paid to State	135,490	150,029

SLEEPING CAR TAX

Title 84, Chapter 23, Revised Codes of Montana, 1947, provides for a tax equal to 1½ % of the value of property of sleeping car companies within the state. The law provides the manner of determining the valuation for assessment purposes. The board shall determine the value of the capital stock of such company invested or used in its business. It shall then divide the amount so obtained by the total car mileage on railroads over which the company did business to obtain the value per car mile, and shall then multiply the value per car mile thus obtained by the total number of car miles within the state. The result shall be taken and considered as the actual value of the property of such company subject to the tax in this state. All taxes collected under the provisions of this law are credited to the General Fund of the state.

	1951	1952
The Pullman Company	\$10,009.41	\$ 10,995.61

EXPRESS COMPANY TAX

Title 84, Chapter 17, Revised Codes of Montana, 1947, provides for a tax in an amount equal to four per cent (4%) of the gross receipts of each express company for business transacted within the state. All license taxes collected under the provisions of this act are credited to the General Fund of the State.

	1951	1952
Railway Express Agency, Inc.	\$14,949.68	\$ 14,086.61

ELECTRICAL ENERGY TAX

Title 84, Chapter 16, Revised Codes of Montana, 1947, imposes a license tax of one per cent (1%) of gross receipts from sale of electrical energy generated and sold within the state.

The original law imposed a rate of $\frac{5}{8}$ of one per cent (1%) of gross receipts. The rate was increased to one per cent (1%) by an act approved March 5, 1937.

All taxes collected under the provisions of this Act are credited to the General Fund of the State.

Six (6) companies are licensed under the provisions of the law.

FISCAL YEAR—July 1, 1950 to June 30, 1951:

GASOLINE REFUND DEPARTMENT

For six months of the fiscal year of 1950-1951 this department had eight office employees and three field auditors. For the fiscal year 1951-1952 we had one field auditor part of the time and two for the remainder of the year. The office force consisted of four at times and no more than six at any time. This amount of help is inadequate for most of the year and causes much dissatisfaction among the claimants.

We suggest that our present system of issuing permits on a permanent basis be discontinued and that annual permits expiring December 31 of each year be issued for a fee of \$1.00. This would clear our files of "dead" permits and keep them on a current basis. All of the money diverted from the highway fund by way of fraudulent refund claims was obtained by use of permits that had not otherwise been used for many years.

The amount appropriated to the drawback fund for the biennium, the transfers to the highway fund for the biennium, the percentage of refunds to the tax collected and to the gasoline consumed, and the number of claims allowed and the claims presented are as follows:

	July 1, 1950 to June 30, 1951	July 1, 1951 to June 30, 1952
Amount appropriated which is 25% of tax collected	\$3,498,786.00	\$3,666,454.10
Refunds allowed and paid	3,193,507.58	3,050,929.99
	<hr/>	<hr/>
Balance reverted to Highway Fund	305,278.42	615,524.11
Cancelled warrants	374.52	
	<hr/>	<hr/>
Total Unexpended and Transferred to Highway Fund		
from Drawback Fund	305,278.42	615,524.11
Percentage of Refunds to Tax Collected	22.8%	20.8%
Percentage of Refunds to Gasoline Consumed	22.2%	20.4%
Number of claims allowed	39,889	41,622
Number of claims presented	47,660	44,938

*Mining, Including Quartz, Placer, Coal Mining, Quarrying, Milling and Smelting.

**Domestic: For use in home, such as cooking, heating and lighting.

***State Wide: Gasoline consumed by companies and individuals operating in more than one county, where it is impossible to allocate to any degree of accuracy the amount used in separate counties.

****Unclassified: Refunds allowed for gasoline used in motor boats, ski lifts and other purposes which do not fall into any of the preceding classifications.

GASOLINE LICENSE LAW

Chapter 92, Laws of 1929, provides for a license tax equal in amount to five cents per gallon on all gasoline manufactured and sold within the state, and on all gasoline shipped into the state. Effective July 1, 1949, the gasoline tax was increased to six cents per gallon.

Seventy-five per cent of the money derived from this license tax is credited to the State Highway fund, one cent per gallon of all aviation gasoline to Aviation Fund and the remainder to the Gasoline License Drawback Fund. If Drawback fund is insufficient, State Treasurer shall transfer from Highway Fund. At end of Fiscal year all money in Drawback Fund is transferred to Highway Fund.

Chapter 116, Session Laws, 1934. Tax collected on motor fuels less than forty-six (46) degrees Baume used on Public Highways and State Highway Construction.

July 1, 1950 to June 30th, 1952\$1,191,037.92

Section 84-1802 R. C. M. 1947: "In making the computation of license tax due two per cent (2%) of the amount of such tax shall be deducted as an allowance for evaporation and other loss of gasoline handled by such dealer."

Amount deducted on gasoline tax paid by re-
finers and dealers from July 1st, 1950 to
and including June 30th, 1952, 2% for
evaporation and other loss\$ 577,491.29

Amount of gasoline sold United States Gov-
ernment Agencies from July 1st, 1950 to
and including June 30th, 1952 on 1,850,924 gallons 111,055.44

TOTAL\$ 688,546.73

January 1st, 1951 the Board passed a resolution not to accept United State Ex-emption Certificates No. 1094's in lieu of the six cent tax on gasoline.

* Various other expenses such as the Administrative Costs of the Highway Department, interest on debentures and other information pertinent to the gasoline tax will be covered by the report of the Highway Department.

** Tax increased July 1, 1949 to six cents.

TAXATION OF MINES

TAXATION OF MINES

At the time of the constitutional convention, in 1889, Montana's only industries worthy of mention were metal mining and stock raising, with mining greatly predominant. Because of the peculiar character of mining property, and in recognition perhaps, of the practical impossibility of intelligently valuing our fissure vein mines, the delegates to that convention wrote into the constitution the "net proceeds clause" providing a special method for the assessment of such property. Under this provision and subsequent legislation, mines are assessed by the county assessors at the price paid the Government therefore, and on improvements and machinery of all kinds. If the surface ground has a separate and independent value for some other purpose, it is assessed at its full value for such other purpose. Net proceeds are assessed by the State Board of Equalization, such assessment being based on verified statements filed with the board by the producers and certified to the counties in which the mines are situated. The taxable value of the assessment at the price paid the Government (\$2.50 to \$20.00 per acre) and of the net proceeds assessment is 100% of the full and true value. The taxable value of the machinery, structures and appurtenances is 30% of the full and true value. These assessment all take the regular levies applicable to the taxing district in which the property is located.

Coal mines, oil properties, lime rock, gypsum and other quarries and mines producing precious and semi-precious gems or stones, or any other valuable mineral or minerals, all come within the provisions of the net proceeds law and are assessed as outlined above.

Royalties

Oil and gas royalties are assessed in the name of the operator who is jointly liable with the royalty owner for the payment of the tax. The tax is payable by the operator, who may withhold the amount so paid from future royalty payments. Other royalties are assessed direct to the royalty owner. Each royalty is valued at the amount received by the owner, and is assigned to Class 1, taxable at 100%.

Mines License Taxes

In addition to the taxes paid on the assessments listed above, coal mine operators are required to pay direct to the state treasurer a license tax of five cents per ton on all coal mined in excess of 50,000 tons annually; oil producers pay 2% of the value of all oil produced; cement manufacturers pay four cents per barrel; plaster manufacturers pay five cents per ton, and metal mines operators pay annually a tax based on the market value of the metals produced. Coal, oil, cement, and plaster license taxes are treated more fully in another part of this report.

Metal Mines License Tax

The amount of metal mines license tax is determined by the State Board of Equalization from verified reports filed by the metal producers, and in this connection the board has authority to examine the books of smelters and reduction works if it deems such examination necessary or advisable. The first \$100,000 of gross production in each year is tax exempt; the next \$150,000 or portion thereof pays a tax of $\frac{1}{4}$ of 1%; the next \$150,000 or portion thereof pays a tax of $\frac{1}{2}$ of 1%; the next \$100,000 or portion thereof pays a tax of $\frac{3}{4}$ of 1%, and all over \$500,000 pays a tax of 1%.

In arriving at the market value of the metals, average quotations in Engineering and Mining Journal are used as a base, and from these average prices the Montana value is determined. The same average prices govern all assessments. The amount payable by the metal producers in 1951 was \$489,235. In 1952 the amount payable is \$649,136. All of this revenue is credited to the general fund of the state.

**TITLE 84, CHAPTER 3, REVISED CODES OF 1947
AS AMENDED BY CHAPTER 178, LAWS OF 1951
CLASSIFICATION OF TAXABLE PROPERTY**

Sec. 84-301. For the purpose of taxation the taxable property in the state shall be classified as follows:

Class One. The annual net proceeds of all mines and mining claims, after deducting only the expenses specified and allowed by Section 84-5403; also where the right to enter upon land, to explore or prospect, or dig for oil, gas, coal or mineral is reserved in land by any person or corporation, the surface title to which has passed to another, the assessor and the state and county boards of equalization shall determine the value of the right to enter upon said tract of land for the purpose of digging, exploring or prospecting for gas, oil, coal or minerals, and the same shall be placed in this classification for the purpose of taxation.

Class Two. All household goods and furniture, including clocks, musical instruments, sewing machines, wearing apparel of members of the family, and all personal property actually used by the owner for personal and domestic purposes, or for the furnishing or equipment of the family residence; all agricultural and other tools, implements and machinery, gas and other engines and boilers, threshing machines, and outfits used therewith, automobiles, motor trucks and other power-driven cars, vehicles of all kinds, boats and all water craft, harness, saddlery and robes.

Class Three. Livestock, poultry and the unprocessed products of both; stocks of merchandise of all sorts, together with furniture and fixtures used therewith; and all office or hotel furniture and fixtures.

Class Four. All land, town and city lots, with improvements, manufacturing and mining machinery, fixtures and supplies, except as otherwise provided by the constitution of Montana, and except as such property may be included in Class Five.

Class Five. (a) All moneys and credits, secured or unsecured, including all state, county, school district and other municipal bonds, warrants and securities, without any deduction or offset; provided, however, that the terms "moneys and credits" as herein used shall not embrace the moneyed capital employed in the banking business by any banking corporation or individual in this state.

(b) All poles, lines, transformers, transformer stations, meters, tools, improvements, machinery and other property used and owned by co-operative rural electrical associations organized under the laws of Montana.

(c) All unprocessed agricultural products either on the farm or in storage, irrespective of whether said products are owned by the elevator, warehouse or flour mill owner or company storing the same, or any other person whomsoever, and excepting livestock and poultry and the unprocessed products of both.

(d) Industrial property included in Class Four, for a period of three years after such property is first assessed. Industrial property for the purposes of this act shall not be construed to include agricultural or commercial property.

Class Six. The shares of stock of national banking associations and the moneyed capital employed in conducting a banking business by any other banking corporation, association or individual in this state. Such money ascertained by deducting from the moneys and credits of such banking corporation, association or individual, the amount of the deposits and any indebtedness representing money borrowed for use in said business, and the value of the shares of any national banking association, to be ascertained by deducting the value of all real estate of such association.

Class Seven. All property not included in the six preceding classes.

If any of the provisions of this act are held invalid such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provisions of applications, and to this end the provisions of this act are declared to be severable.

Sec. 84-302. Basis for imposition of taxes. As a basis for the imposition of taxes upon the different classes of property specified in the preceding section, a percentage of the true and full value of the property of each class shall be taken as follows:

Class 1, One hundred per cent; **Class 2,** Twenty per cent; **Class 3,** Thirty-three and one-third per cent; **Class 4,** Thirty per cent; **Class 5,** Seven per cent; **Class 6,** Thirty per cent (See Sec. 84-308); **Class 7,** Forty per cent.
